

HARVARD
Department of Stem Cell
and Regenerative Biology

Stem Cells and Regenerative Medicine Seminar Series
Presents

Intradepartmental Seminar

November 6, 2020

12:00-1:00PM

<https://harvard.zoom.us/j/94560876083?pwd=aW10emV5S3Y1UENud3JEa2lzaVc5dz09>

Password: 265001

Marlies Rossmann

(Research Associate in Zon Lab, BCH, HSCRB)

“Transcriptional regulation of mitochondrial metabolism by TIF1 γ drives erythroid progenitor differentiation”

Sahar Tavakoli

(Research Associate in Wagers Lab, HSCRB)

“Integrative therapeutics: a novel approach to discover new treatments for muscle disease”

Moderator: Rich Lee, Professor of Stem Cell and Regenerative Biology

Department of Stem Cell and Regenerative Biology
7 Divinity Avenue
Cambridge, MA 02138
