

# BCMP Symposium

## Protein Therapeutics and Targets

---

*Sponsored by the Institute for Protein Innovation*

Monday, November 14<sup>th</sup>, 2016

HMS C Building - Cannon Room » 1:00–5:00PM

### **Richard DiMarchi, Ph.D.**

Standiford H. Cox Professor of Chemistry  
Linda & Jack Gill Chair in Biomolecular Sciences  
Indiana University

*“Chemical evolution of endocrine hormones”*

### **Andreas Plückthun, Ph.D.**

Director, Dept. of Biochemistry  
University of Zurich, Switzerland

*“Protein engineering for inducing cell-selective apoptosis”*

### **Aaron Ring, Ph.D.**

Assistant Professor of Immunobiology  
Yale School of Medicine

*“Probing immune receptor function with big numbers”*

### **K. Dane Wittrup, Ph.D.**

C.P. Dubbs Professor of Chemical and Biological Engineering  
Associate Director, Koch Institute for Integrative Cancer Research  
Massachusetts Institute of Technology

*“A minimalist scaffold for protein recognition”*

*Reception to follow – 5:00-6:00pm.*

DEPARTMENT OF  
Biological Chemistry and  
Molecular Pharmacology
