Join our experts for answers to your PSC culture questions

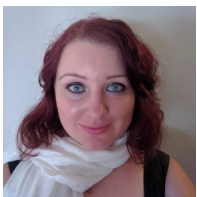

Stem cell office hours

Date: Tuesday, June 20

Time: 11AM–2PM

Location: Elements Café in the New Research Building, Harvard Medical School

Two of our stem cell experts will be available to answer any questions you may have about pluripotent stem cell culture. Come by to chat with them and grab a free snack!

Ania Wronski, PhD, is a Field Application Scientist (FAS) in the Cell Biology group at Thermo Fisher Scientific. Ania received her PhD in molecular biology and biochemistry from the University of Queensland in Australia and completed a four year postdoctoral study in the lab of Charlotte Kuperwasser at Tufts University.

Alexandria Sams, PhD, is a Senior FAS in the Cell Biology group at Thermo Fisher Scientific. She obtained her doctorate at the Massachusetts Institute of Technology. As a staff scientist for more than 5 years, Alexandria's research focused on pluripotent stem cell media and matrix development.

Contact Ania Wronski with questions regarding the event at ania.wronski@thermofisher.com
