

The
Program in Genetics and Genomics
Annual Symposium

featuring the research of past and current students

Goldenson 122

Monday, May 13, 2019

1:30 – 5:00 p.m.

*Poster session with wine and cheese to follow
in the Modell Atrium*

Open to the public - All are welcome!

Speakers

Aditi Shukla, Kennedy Lab

"pUG RNAs in Gene Regulation and Genome Defense"

Heather Landry Drexler, Churchman Lab

"Exploring the nascent transcriptome with direct RNA nanopore sequencing"

Patricia Rohs, Bernhardt Lab

"Getting Bacteria Into Shape"

Tomasz Kula, Elledge Lab

"High-throughput discovery of CD8 T cell antigens"

Diana Libuda, University of Oregon

"Why can't sperm take the heat?: role of piRNA pathways in temperature-induced male infertility"
